SUMMARY

I am a motivated and enthusiastic individual starting my journey in web development. I am eager to learn more and use what I know to help build useful projects. I work well in a team and want to keep learning and improving.

EDUCATION

Biliran Province State University
Bachelor of Science in Computer Science
May 2025

SKILLS

Programming Languages
- Python
- PHP

Frameworks
- Django
- Laravel

Frontend Development
- HTML
- CSS
- Tailwind CSS
- JavaScript

CMS and Tools
- WordPress
- Github
- VS Code

Database
- Postgresql

EXPERIENCE

CVISNET Foundation Inc.
Intern | Jan. 2025 – Mar. 2025
- Assisted with WordPress projects, updating text and images.
- Presented completed projects to team leads.
- Gained hands-on experience in real project workflows, collaboration, and task management.

PROJECTS

Report & Complaint Management System
- Created a web based system where informants can submit reports and complaints, and administrator or offices can manage and respond to them easily.
- Implemented a machine learning model to automatically classify and route reports and complaints to the appropriate office.
- Built with Django, PostgreSQL, HTML,Tailwind CSS and JavaScript.

Healthcare Translation
- I built this system to help healthcare workers and
  foreign patients communicate better by translating medical content into their native language
- I integrated the OpenAI API and Google Translate for accurate, real-time translations
- I used Django to build the backend and focused on making the interface simple, accessible, and easy to use.

AVAILABILITY

- Weekdays
- Public holidays: Available
- I am also willing to participate in additional training and development opportunities to enhance my skills.
