CAREER SUMMARY

Motivated aspiring programmer with hands-on experience in building web applications through academic projects, internship training, and freelance work, including management systems, booking site and social platforms. Familiar with basic troubleshooting and software testing. Eager to learn, adapt, and contribute to real-world team.

EDUCATION

Biliran Province State University   **Naval, Biliran**

Bachelor of Science in Computer Science   *Graduation Date: May 2025*

SKILLS & INTERESTS

Skills: Skills Programming Language: Python
    Frameworks: Django
    Frontend Development: HTML, CSS, Tailwind CSS
    Platforms & Tools: Github, Vercel
    Databases: PostgreSQL, MySQL
    Basic: Troubleshooting, Web Design
    Soft Skills: Patience, Willingness to learn, Adabtability

Interests: Web and Mobile application development
    Artificial Intelligence
    Software testing
    Technical Support
    Continue Learning

WORK EXPERIENCE

CVISNET Foundation Inc.   **Cebu City**

Web Developer Intern   *Jan 2025 - Mar 2025*

- Supported WordPress based projects by updating content and performing layout.
- Helped improve projects documentation for smoother onboarding.
- Collaborated with developers and designers to test features and resolve minor issues.

MCO IT SOLUTIONS   **Naval, Biliran**

Full Stack Developer   *Jul 2025 - Aug 2025*

- Performed bug fixing and implemented feature enhancements.
- Conducted website optimization to improve performance, speed, and reliability.
- Provided maintenance and updates to ensure site stability and functionality.

PROJECT EXPERIENCE

Biliran Province State University   **Naval, Biliran**

Reports and Complaints Management System   *Apr 2024 - Jan 2025*

- Used classification algorithm and cosine similarity to auto-route reports and complaints to the correct offices.
- Allows students and staff to file reports and complaints online.
- Provides an admin dashboard for tracking, monitoring and managing submitted reports and complaints.

CVISNET Foundation Inc.   **Cebu City**

Healthcare Translation   *Jan 2025 - Mar 2025*

- Helps healthcare workers and foreign patients communicate in their native language.
- Integrates Open AI and Google Translate for accurate and real-time translations.
- Provides a simple interface for instant, reliable translation during consultations.

MCO IT SOLUTIONS **Naval, Biliran**
Masaya Trip *Jul 2025 - Aug 2025*

- Contributed to the development and maintenance of a production-level travel booking website for hotels, tours, and travel services.
- Fixed bugs and implemented feature enhancements based on business and user requirements.
- Optimized website performance by improving page load speed and overall reliability.
- Performed regular maintenance, updates, and issue resolution to ensure smooth site operation

Personal Project **Mapuyo, Biliran**
Rantspace *May 2025 - Present*

- A social platform where users can share anonymous rants and thoughts.
- Provides real-time posting and interaction in a safe, judgment-free space.
- Includes features for user engagement and content moderation.
- Used neon to handle scalable and reliable database hosting.

LEADERSHIP EXPERIENCE

Reports & Complaints Management System **Naval, Biliran**
Lead Developer *Apr 2024 - Jan 2025*

- Led the design and development of a Python based system to automatically classify and route student and staff reports and complaints to the correct offices using classification algorithm and cosine similarity.
- Took ownership of backend logic, ensuring accurate and efficient report processing.
- Coordinated project milestones, documentation, and testing, demonstrating initiative and responsibility.

RantSpace **Mapuyo, Biliran**
Lead Developer *May 2025 - Present*

- Initiated and developed a safe, judgment-free social platform for real-time posting and interaction.
- Designed features for user engagement, anonymity, and content moderation.
- Led the project from concept to prototype, ensuring usability and scalability.
- Used neon for scalable database hosting and prisma for efficient, type-safe database interaction and schema management.
