Summary

Enthusiastic web developer with hands-on experience in full-stack development, specializing in Django and modern frontend tools. Strong foundation in problem-solving, real-world project development, and team collaboration. Committed to building practical applications and continuously improving technical skills.

Skills

Languages: Python, PHP
Frontend: HTML, CSS, Tailwind CSS, JavaScript
Frameworks: Django, Laravel
Database: PostgreSQL
Tools/CMS: WordPress, GitHub, VS Code

Experience

Web Development Intern – CVISNET Foundation Inc. | Jan 2025 – Mar 2025
• Supported WordPress-based projects by updating content and performing layout adjustments
• Collaborated with team leads to present completed tasks and ensure quality delivery
• Exposed to real development workflows, task management, and collaborative processes

Projects

Report & Complaint Management System — Full-Stack Developer
• I made a web system that lets people submit complaints, and it routes them to the right office automatically.
• I used a machine learning model to classify and route the issues.
• Tech stack: Django, PostgreSQL, Tailwind CSS, JavaScript

Healthcare Translation App — Backend Developer
• I built this to help foreign patients and healthcare workers communicate better.
• I used OpenAI and Google Translate to make real-time translations.
• The interface is simple and accessible, built with Django.

Education

BS in Computer Science – Biliran Province State University | Expected May 2025
